High-level summary and highlights in brief:

We have two in-person labs:
Fedora Containers Lab by Alex Callejas
Fedora en ARM by Hazzim
With a total of 17 attendees

Historical Background (have we been at this event before, how did we participate):

First HATCH but the Mexican Fedora community made a monthly talk. Also was our third anniversary.

Overall Event Summary (what you attended, what you presented, who you connected with):

I attended as an organizer a long side of Alex Callejas, Hazzim, and Efren Robledo.

We made two labs Fedora Containers Lab by Alex Callejas, Fedora en ARM by Hazzim.

We have enough swag for the attendees; we use the remaining for online quizzes and send it to many places in Mexico and Chile.

One attendee make us a 3D version of our ciommunity logo.

(what went well)**

**Opportunities
(how can we improve for next time)**

SWAG, Event Organizers make a great Job

Make an hybrid event, our principal problem was we expect more people (25-30) but not works as expected.
